

NEW DRIVEWAY ASSESSMENT

Take the assessment to help determine whether a new driveway might make sense for you. Check any statements that apply.

- | | |
|---|---|
| <input type="checkbox"/> Desire to improve the value of your property | <input type="checkbox"/> Driveway is cracking and lifting creating tripping hazards |
| <input type="checkbox"/> Want to improve your curb appeal and property landscape | <input type="checkbox"/> Concrete was poured at the wrong elevation and water is draining towards your home |
| <input type="checkbox"/> Want to create an entryway that is easy to maintain | <input type="checkbox"/> Water is pooling and holding water in areas over the driveway creating slipping or falling hazards |
| <input type="checkbox"/> Want to increase the convenience of a paved surface as a homeowner | <input type="checkbox"/> Driveway has more than one pothole increasing the likelihood of foundation damage |
| <input type="checkbox"/> Desire to create a space to clean your vehicle | <input type="checkbox"/> Driveway has alligator cracking, a pattern that looks like reptile scales, and covers the majority of the driveway's surface |
| <input type="checkbox"/> Want to create a safe area for children to play and ride bikes | <input type="checkbox"/> Driveway is more than 20 years old and you are experiencing a combination of issues that require repair |
| <input type="checkbox"/> Desire to create a space to park a recreational vehicle | |
| <input type="checkbox"/> Looks uninviting (patchy, blotchy and faded) | |
| <input type="checkbox"/> Tired of the messiness of mud when it rains | |

Self-Assessment Summary: The more statements checked, the greater the likelihood a new driveway is a great idea for you. If you've selected any statements in the right-column, a driveway investment could also save headaches and other more costly structural repair expenses down the road.
